MARK

Mark Lintott was born and educated in England. After graduating from design school in 1981 he went to work for 2 of his design tutors; David Connor and Julian Powell-Tuck, at the outset of the high profile practice, Powell-Tuck and Connor.

The practice produced a wide range of architectural and design works with clients as diverse as Anita Roddick, (herself just starting Body Shop), pop star Adam Ant, guitarist Marco Pirroni, fashion stores for Malcolm McLaren and Vivienne Westwood, recording studios for Metropolis Studios in west London and several cooperative projects with the sculptor Anish Kapoor.

In 1989 P-T and C completed a large commercial space in Taipei, Taiwan for the ATT fashion group. This was followed by a string of commercial work in Taiwan ranging from cinemas to restaurants to high-end residential projects. In 1990 the London practice was

dissolved and Mark Lintott Design (MLD) was established in Taiwan in 1991 and is still going strong until this day. MLD has completed many architectural, interior, furniture, and various other design projects since.

Since 1991 MLD has been responsible for works of increasing scale and complexity both in Taiwan and around Asia. The firm has built a reputation for leading design work that is both new and innovative but also invariably successful for their clients. Work in the entertainment and commercial field has gained MLD an enviable position at the top of their profession. At the same time the practice has built a solid reputation for high end residential work for both private clients and grade A developers both in Taiwan and China.

MLD has its main office in downtown Taipei. Staffed by a group of around 10 hardworking and enthusiastic designers from diverse backgrounds, the firm has a depth of experience unmatched on the island. The firm's Senior Associate, Chia Yu Yen is responsible for the day-to-day operation of the design group. She has many years' experience at MLD preceded by 8 years based in San Francisco. Each project is supported by a team, assembled according to the needs of the work and backed up by outside

consultants where necessary.

Mark Lintott has lectured extensively about the work of the practice and been the invited guest critic at numerous universities around Asia such as: Tung Hai University, National Taipei University of Technology, Ming Chuan University, National Taichung University of Science and Technology, DaYeh University, TaiNan University of Technology, Chinese Society of Interior Designers, IDA Congress, HA+D Conference, Eslite Bookstore, etc., to just name a few.
